CON-E-CO Expands ALL-PRO Product Line with Two Decumulative Models; Growth Realized in International Markets

Low profile batch plant engineered for world market has smaller footprint

Blair, Neb. (Dec. 2, 2010) – CON-E-CO, an Oshkosh Corporation (NYSE:OSK) company, today introduced the CON-E-CO® ALL-PRO® 5 and ALL-PRO 12 decumulative batch plants engineered for global markets. The company also announced that ALL-PRO batch plants have been sold and placed into service by ready-mix producers in the countries of Colombia, Nigeria and Russia.

“We’re very excited to expand our ALL-PRO batch plant line-up to include these two new decumulative models to meet growing worldwide demand for trouble-free batch plants that are maneuverable, easy to install, and that have a smaller footprint,” said Neil Smith, CON-E-CO general manager. “These additions to the ALL-PRO line give our international customers more choices, and at an excellent value. That’s why producers from around the globe are choosing CON-E-CO.”

The ALL-PRO 5 and ALL-PRO 12 decumulative batch plants feature 180-degree access truck charging, a patented LO-PRO® blending cement batcher and an aggregate batcher configured with either two or three compartments. The mixer charging conveyor is available in either 24-inch or 30-inch widths.

The ALL-PRO 5 decumulative batch plant is available with an optional cement storage silo, while the ALL-PRO12 offers either 400-barrel capacity or to 1230-barrel capacity. In addition, an available overhead truck dust collection system recycles material directly back into the cement batcher.

“With a width as narrow as eight feet, the ALL-PRO line-up is very easy to transport – which is another big benefit to our international customers,” said Chris Zuniga, CON-E-CO international sales manager. “ALL-PRO has been a very successful product, and with these new models we expect the momentum to continue.”

About CON-E-CO

Concrete Equipment Company (CON-E-CO) is a subsidiary of Oshkosh Corporation [NYSE: OSK], and engineers, manufactures and supports North America's leading line of portable and stationary batch plants. CON-E-CO's products have a well-earned reputation for quality, durability and reliability. Around the globe, CON-E-CO batch plants are operating in the U.S., Canada, Mexico, Australia, New Zealand, Israel, Costa Rica, Colombia, Venezuela, Ecuador, Peru, Indonesia, Trinidad, Puerto Rico, and El Salvador. For more information about CON-E-CO batch plants, visit: www.con-e-co.com. For international sales inquiries, contact Chris Zuniga at czuniga@mcneilusco.com.

Forward-Looking Statements

This press release contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this press release, words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "should," "project" or "plan" or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the impact on revenues and margins of the projected decrease in M-ATV production rates; the cyclical nature of the Company's access equipment, commercial and fire & emergency markets, especially during periods of global economic weakness and tight credit markets; the Company's ability to produce vehicles under the FMTV contract at targeted margins; the duration of the ongoing global economic weakness, which could lead to additional impairment charges related to many of the Company's intangible assets and/or a slower recovery in the Company's cyclical businesses than equity market expectations; the expected level and timing of U.S. Department of Defense (DoD) procurement of products and services and funding thereof; risks related to reductions in government expenditures in light of U.S. defense budget pressures and an uncertain DoD tactical wheeled vehicle strategy; the potential for the U.S. government to competitively bid the Company's Army and Marine Corps contracts; the consequences of financial leverage associated with the JLG acquisition, which could limit the Company's ability to pursue various opportunities; the potential for commodity and other raw material costs to rise sharply, particularly in a future economic recovery; risks related to the collectability of receivables,

particularly for those businesses with exposure to construction markets; the cost of any warranty campaigns related to the Company's products; risks related to costs and charges as a result of facilities consolidation and alignment; risks related to production delays arising from supplier quality or production issues; risks associated with international operations and sales, including foreign currency fluctuations and compliance with the Foreign Corrupt Practices Act; risks related to work stoppages and other labor matters; the potential for disruptions or cost overruns in the Company's global enterprise system implementation; the potential for increased costs relating to compliance with changes in laws and regulations; and risks related to disruptions in the Company's distribution networks. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this press release. The Company assumes no obligation, and disclaims any obligation, to update information contained in this press release. Investors should be aware that the Company may not update such information until the Company's next quarterly earnings conference call, if at all.
